

Capstone & AWS Data Engineer Exam

Polish FieldNote, prepare evidence-based for DEA-C01, and bridge to the GenAI specialization.

Earlier sub-courses build skills; AIDD-AWS-4 demonstrates them. Close gaps, defend FieldNote, then prepare for the AWS Data Engineer – Associate exam with evidence-driven targeting.

WHAT YOU'LL BE ABLE TO DO

- **Polish and defend.** Close gaps, add tests, document, defend to peers.
- **Prepare with evidence.** AWS Official Practice baseline, re-study, full mock.
- **Earn DEA-C01.** Sit the Data Engineer – Associate exam (pass 720/1000).
- **Bridge to GenAI.** Prepare for the optional AIDD-AWS-5 specialization.

PREREQUISITES

AIDD-AWS-1, -2, and -3 completion · the full FieldNote project · readiness to commit focused time to exam prep.

CREDENTIAL MAPPING

Terminal credential: AWS Certified Data Engineer – Associate (DEA-C01), pass 720/1000. Fee paid directly to AWS.

DEFEND — FIELDNOTE (DEA MILESTONE)

Defends FieldNote and earns the AWS Data Engineer Associate credential — then bridges to the GenAI specialization.

MODULES	TIME	FORMAT	OUTCOME
3	~28–35h	1:1 + defense	DEA-C01
